Notes:																								
1. Callaway Handicap method applied to arrive at net scores. Instructions are available to golf that fully explain Cway Hndcp method including, holes deducted and final hdcp adjustments. Note Cway stroke adjusts are added to your final HANDICAP -- before subtracting said handicap from your gross score to arrive at your net score.																								
2. For gross score and net score ties, the tie-breaker comparison starts at the GROSS strokes on hole 17, then goes to 18, then to 1, 2, 3 ... up thru 16, as needed.																								
3. Gross stroke counts above with SINGLE strikethrough indicate FULL Callaway hdcp deduction. Strokes from these holes are added to your hdcp in total.																								
4. Gross stroke counts above with DOUBLE strikethrough indicate 1/2 Callaway hdcp deductions. Here, 1/2 of your hole is added to your Cway Hdcp. See #4 for exception to this rule -- which is the one exception to standard Callaway handicap instructions.																								
5. PER TOURNAMENT DIRECTOR RULES, half-hole CWAY HNDSCP deductions on odd-number stroke scores are ROUNDED DOWN. For example, a hole with 7 gross score and a 1/2 Cway Hdcp will have 3 strokes added to Cway Hdcp...
